Tortoises are popular pets but they aren't easy to look after. African tortoises are more difficult to look after than European tortoises.

All tortoises need a warm, dry place to sleep. Tortoises need an indoor and an outdoor house. In the summer tortoises love sleeping outside but they don't like the rain.

Feed your tortoise wild flowers and special tortoise food. You can buy this from pet shops. They can have lettuce, cucumber and tomatoes once or twice a week as a treat. But not everyday!

Tortoises hibernate in the winter usually from October to February. Put them in a warm box with clean straw and holes for air. Check them once a week but don't wake them up!
